

Brighthouse Shield® Level Annuities

Historical Price Returns

Over the long term, history has shown that equities can be a powerful way to help grow your assets and keep pace with inflation. But caution is warranted. Over the short term, equities don't always travel in an upward direction and may stumble.

A Brighthouse Shield® Level Annuity can help you invest for the long term while feeling comfortable with the amount of risk you're taking. Help protect a portion of your retirement assets and participate in opportunities that may provide stronger growth potential than you could get with some conservative investments¹ by tracking up to four indices with a Shield annuity. These indices are diversified among large-cap, small-cap, and international stocks.² You can use this guide to help familiarize yourself with the indices tracked by a Shield annuity and to review their historical annual price returns.³

A Shield annuity immediately puts money to work and allows participation in some of the growth opportunities the market offers, up to the rate crediting type. At the end of each term, the index value at the beginning and end of the term will be compared – factoring in the level of protection as well as the rate crediting type – which will result in a new account value.⁴ The fact card enclosed in your Shield annuity materials provides more information. Your financial professional can also tell you which options and indices are available with your Shield annuity.

Brighthouse Shield® Level Select 6-Year Annuity, Brighthouse Shield® Level Select 3-Year Annuity, and Brighthouse Shield® Level Select Advisory Annuity are collectively referred to as “Shield® Level annuities” or “Shield® annuities.” This material provides a general overview of the Shield annuity suite of single premium deferred annuity products. Please refer to the product fact card and prospectus for complete details regarding the Brighthouse Shield Annuity being discussed. Product availability and features may vary by state or firm.

Brighthouse Shield Level Annuity

Protect retirement assets

A Brighthouse Shield Level Annuity provides a level of protection to help ensure that losses are limited when markets turn volatile.

Participate in growth opportunities

With a Shield annuity, balance is built in. This means that even with a guaranteed level of protection, there are opportunities to take advantage of market growth.

Pay no annual fees

Unlike many financial products, there are no annual fees with a Shield annuity.⁵

Brighthouse Shield Level Annuities are long-term investments designed for retirement purposes. They have limitations, exclusions, charges, termination provisions, and terms for keeping them in force, and are not guaranteed by the broker/dealer, the insurance agency, the underwriter, or any affiliates of those entities from which they were purchased. All representations and contract guarantees, including the death benefit and annuity payout rates, are subject to the claims-paying ability and financial strength of the issuing insurance company. Because the client agrees to absorb all losses beyond their chosen Shield Rate, there is a risk of substantial loss of principal. Please refer to “Risk Factors” in the contract prospectus for more details.

Withdrawals of taxable amounts are subject to ordinary income tax. Withdrawals made before age 59½ may also be subject to a 10% federal income tax penalty. Distributions of taxable amounts from a non-qualified annuity may also be subject to the 3.8% Net Investment Income Tax that is generally imposed on interest, dividends, and annuity income if the modified adjusted gross income exceeds the applicable threshold amount. Withdrawals will reduce the death benefit and account value. Withdrawals may be subject to withdrawal charges.
